Vice City is a open world action-adventure video game developed by Rockstar North and published by Rockstar Games. The game was released on September 15, 2002, for Microsoft Windows, PlayStation 2, Xbox and GameCube, and on October 12, 2004, for the PlayStation Portable (PSP). Grand Theft Auto: Vice City is the second installment in the GTA series. It is the first installment to be developed by Rockstar North, and the first to be released on home consoles. The game is set in 1980s Vice City, set in two decades after the events of

Grand Theft Auto III. The plot follows a rookie Los Santos Police Department officer, Fernando, who must save his partner, Blaine, from the Bell Tower of Fire, and travel around the city to the crime-ridden areas. As a big fan of the famous series, now i really wanted to play this game again on modern systems, but it doesn't matter if you're on Windows or Mac OS. So if you're stuck, like me, you're in the right place.

HOW TO INSTALL GTA VC BURN  
IN GTA VICE CITY BURN Open the  
GTA VC BURN folder. The setup file  
is GTA\_VC\_BurnSet.exe. Double-  
click the file to begin the game  
installation. The recommended setting  
should be properly set up. After  
completing the game installation, start  
the game and enjoy the game play! .  
All the above work perfectly but the  
game screen is all grey and black and  
the CD is mounted. The included files  
are in the download. A: Download the  
RAR file you need then extract them  
and run the.exe file. If there is an error  
while running the.exe file then you  
might not have the GTA\_VC.exe file

---

copied or extracted. it might be loading the.exe file manually is the problem. If you have just extracted them then close all instances of the game and then run the extracted file. Run the file from the ROOT folder. this might take a while the first time but then, it won't run again and the game will install itself the next time. you should have a "C:\Users\YOUR USER\AppData\Local\GTA\GTA Vice City\GTA ViceCity.exe" folder. my GTA VC.exe File won't even start because i don't have the CD and i didn't have the RAR file properly installed.

**How To Install GTA VC INSTEAD Of The Original Setup and Install Method:**

---

Extract the RAR file you downloaded. Run the extracted file. you should have a "C:\Users\YOUR USER\AppData\Local\GTA\GTA VC\GTA VC.exe" folder. you may have to re-extract the setup file. if it wont extract, remove it and then install again. now start the game. run the "GTA VC.exe" file. it will install. go to the ROOT folder of the game folder and copy or download the original exe files (the ones you were previously downloading for the original setup). run the.exe files again with all the game files (the GTA VC.exe and the GVA VC.exe) and the files used in the installation of the original game. run

---

the game. GTA VC Burn Download  
the GTA VC Burn. Extract it. Run the  
setup file. Run the 1cb139a0ed
