When I try to send a message through a PHP script, I get the following error. Message delivery failed: send of 12345678901L: No Service Provider Encountered at /home/my\_user\_account/env/lib/python2.7/site-packages/amazon-email/lambda/smtp\_connection.py:117:5 I tried contacting AWS support, but when I asked, they said that I need to setup the connection script. Let me know if you can help! Thanks! A: Hi you can create one file on your system with below content `import boto3  
aws_region = 'us-west-2'  
aws_sts = boto3.Session(profile_name='creds_profile_name')  
connection = boto3.Session(profile_name='creds_profile_name')` This will give you all the required services providers. Refer to this for more information. The pilot of missing Malaysia Airlines Flight MH370 will be interviewed in Sydney this week, raising hopes that his contact with the military could have something to do with the search operation. Hishammuddin Hussein is expected to arrive in the Australian city on Tuesday and the Australian Transport Safety Bureau (ATSB) is hopeful the interview will put a stop to questions about his whereabouts. The pair first spoke on the phone on Monday,
